🔗 Portfolio | GitHub | Linkedin

SUMMARY

Creative and detail-oriented Frontend Developer with 1+ years of experience building responsive web applications using React.js, Tailwind CSS, and JavaScript. Passionate about crafting clean UI, improving user experience, and working in collaborative environments. Familiar with modern tools like Firebase, Git, and REST APIs.

SKILLS

Fornt-End : HTML5 | CSS3 | Tailwind CSS | JavaScript | React.js
Back-End : Node.js | Express.js | MongoDB
Authentication : Firebase Auth | JWT
Tools : Git | GitHub | Figma | VS Code | Netlify | Vercel
Others : Axios, REST API, React Router, Framer Motion
Soft Skills : Time Management | Problem Solving | Critical Thinking | Communication

---

PROJECTS

1.KnowledgeHunt – Knowledge Sharing Platform   🔗 **Live link**
Tech: React + MongoDB + Firebase + JWT Auth

- Built a full-stack blog platform with article posting, editing, liking & commenting
- Users can filter articles by category, sort by date, and view author profiles
- Used Firebase JWT for secure authentication; Axios with token interceptor for protected API calls
- Designed modern responsive UI similar to social platforms

2.HobbyHub – Hobby Group Organizer   🔗 **Live link**
Tech: React + MongoDB + Firebase

- Users can create, join, and manage local hobby groups
- Implemented user registration/login, dashboard, and group-based content display
- Backend built with Express.js and MongoDB; deployed on Netlify and Vercel
